

MAHMOUD ELMAHDY

Data Analyst | BI Developer

Alexandria, Egypt (Open to Relocate) | +20 111 078 2859 | mahmoud.ilmahdy1@gmail.com | **GitHub:** <https://github.com/MahmoudElMahdy>
LinkedIn: <https://www.linkedin.com/in/mahmoud-il-mahdy> | **Portfolio:** <https://mahmoud-elmahdy.vercel.app/>

PROFESSIONAL SUMMARY

Data Analyst & BI Developer with **3+** years of experience constructing **120+** analytics projects for **30+** international clients. Specialized in Power BI, SQL, and Excel automation — compressed reporting cycles **from 10 days to 1 day** and reduced operational costs by **20%** for SGS Saudi Arabia. **Trilingual in Arabic, English, and German.** Seeking a full-time role in Egypt, Saudi Arabia, or remotely.

CORE COMPETENCIES

BI & Visualization: Power BI, DAX, Power Query, Advanced Excel (VBA, PivotTables), Tableau
Data Engineering: SQL Server, PostgreSQL, MySQL, ETL Pipelines, Medallion Architecture, Star Schema, Data Modeling
Analytics: Statistical Modeling, Root-Cause Analysis, KPI Development, Process Optimization, A/B Testing, Segmentation
Automation: VBA Macros, Python (Pandas, NumPy), Workflow Automation, Automated Reporting
Soft Skills: Stakeholder Workshops, Cross-functional Communication, Client Delivery, Data-Driven Storytelling

PROFESSIONAL EXPERIENCE

- Excel Automation Consultant** · SAR – Saudi Arabia Railways · Saudi Arabia (Remote) *Feb 2025 – Jun 2025*
- Engineered a 4-system Excel automation suite for SAR’s engineering and operations teams, eliminating fully manual workflows and reducing data entry errors to zero through custom VBA forms with validated dropdowns.
 - Built an ECR management system with Gantt chart timeline, automated overdue alerts with color-coded rows, and one-click PDF daily dashboard — cutting management reporting time by an estimated 3+ hours/day and eliminating missed project deadlines.
 - Designed RCA tracking, asset task management, and attendance systems — consolidating cross-functional operational data for 4 engineering teams into auditable, structured records that replaced fragmented manual logs.
- Data Analyst & BI Consultant** · SGS – Saudi Ground Services · Saudi Arabia (Remote) *Mar 2022 – May 2023*
- Analyzed passenger load, boarding, and delay data across 3 daily shifts during Hajj season — enabling strategic staff reallocation without new hiring costs.
 - Identified operational bottlenecks through statistical modeling, reducing passenger wait times and cutting flight delay costs by 20%+ per shift.
 - Built a multi-module Excel KPI dashboard and PowerPoint presentation for real-time ground operations monitoring; automated reporting pipeline from 10 days to 1 day.
 - Facilitated stakeholder workshops to translate complex data into actionable process redesigns and sustainable operating models.
- Data Analyst – Freelance** · Khamsat & Mostaqi · Egypt / International *Sep 2021 – Present*
- Designed 120+ end-to-end analytics projects for 30+ clients: dashboards, ETL pipelines, KPI reporting, and process automation across multiple industries.
 - Built 70+ Power BI & Excel dashboards; engineered VBA/Power Query automation that cut manual processing time by 50% across client workflows.
 - Conducted root cause analysis on operational data, translating complex findings into clear recommendations and data-driven process redesigns.
 - Achieved 20+ five-star ratings across 30+ clients by delivering dashboards ahead of deadline with zero revision cycles, driving repeat engagements and sustained platform ranking.

EDUCATION & CERTIFICATIONS

Bachelor of Management Information Systems · Alexandria University *Sep 2018 – Jul 2022*

Certifications: Advanced Data Analysis Nanodegree (Udacity) | Machine Learning Nanodegree (Udacity) | McKinsey Forward Program | Advanced SQL & Excel (365 Data Science) | Power BI Reporting (365 Data Science)

Currently pursuing: Google Advanced Data Analytics | Power BI Data Analyst – Microsoft | ML Specialization – Stanford (Coursera)
